But UN Infantry Repulses Three Attacks, Kills Over 200 Reds

SEOUL, Korea (P)—U. N. infantrymen threw back three furious Chinese assaults last night and today against Bunker Hill on the Korean Western Front, killing or wounding a third of the 800-man Red force.

The fighting raged nearly eight hours. At some points troops closed to hand-to-hand combat on the muddy slopes soaked by six inches of rain in the past 48 hours. U. N. tanks and artillery kept up a steady barrage throughout the night in reply to Red artillery.

U. S. B29 and B26 bombers again raided supply and communication centers near the hard-hit North Korean capital Pyongyang.

**Wound 35 POW's**  
The U. S. Eighth Army disclosed that U. N. guards wounded 38 prisoners of war Aug. 11 in putting down a demonstration among "known Communist trouble-makers" in a POW pen on Kojie Island off South Korea.

In Tokyo, Gen. Mark W. Clark announced he had reorganized his Far East Command headquarters to give the Navy and Air Force an almost equal voice with the Army in overall planning and policy, including direction of the Korean War and armistice talks.

Japan-based B29 superforts met no opposition last night in bomb runs over Chinnampo, port city for Pyongyang. Pilots reported results were good.

**Pilots Bomb Supplies**  
Other B26 pilots attacked a supply area south of Kangdong, near Pyongyang, and reported their bombs touched off two secondary explosions and three large fires in the target zone.

The Bunker Hill fighting—four miles east of the Panmunjom armistice talks site—was the only major action along the 155-mile winding front.

U. S. Marines captured the dominant height Aug. 12 in a quick thrust. Then for four days the Reds attacked furiously in vain attempts at recapturing the ridge that overlooks both U. N. and Communist front-line positions.

A two-squad probe at 8:40 last night touched off the latest battle. An hour after the two-squad probe, 200 Chinese, using burp guns and hand grenades, smashed against our defenses of the ridge for 20 minutes and then withdrew.

**Battle For 90 Minutes**  
The last assault of from 400 to 800 men hit at 10:30 p.m. This battle raged for an hour and a half before the Reds were beaten back by deadly machine-gun, tank and artillery fire.

A U. N. patrol at 3:15 a.m. pushed out from prefabricated bunkers and bumped into a sizable group of Reds and fought hand-to-hand for 45 minutes before the patrol withdrew. Red gunfire continued to harass U. N. lines until 4:35 a.m. Tuesday.

Communist casualties were officially estimated at 270 killed or wounded.

## Two Million Cheer Legionnaires In Great Parade on 5th Avenue

Ike Among Marchers In 25 Block Route For Big Convention

NEW YORK (P)—A police-estimated throng of 2,000,000 persons cheered today as the American Legion paraded up Fifth Avenue with the Supreme Allied Commander of World War 2 marching in the ranks.

Gen. Dwight D. Eisenhower, the Republican presidential candidate, appeared genuinely overjoyed as he marched 25 blocks in blue Legion cap at the head of Legionnaires from his home town of Abilene, Kans.

In the festive atmosphere of Fifth Avenue he showed none of the signs of tension which many observers say he displayed when addressing the Legion's 34th annual convention in Madison Square Garden yesterday—and in other public speeches.

Grinning and waving his cap, he threw hundreds of salutes to the cheering crowds, once he dashed from the line of march to shake hands with several wounded war veterans at the curb. Opposite St. Patrick's Roman Catholic Cathedral he doffed his cap and saluted Francis Cardinal Spellman, whom he knew in World War II. The cardinal smiled and gripped his hands overhead in reply.

The parade of 75,000, which is expected to take 12 hours, stepped off to the blare of brass and throb of drums at 9:06 a.m. (EST) at 31st Street. Eisenhower joined it at 39th Street, marching to 64th Street under a warm August sun which flooded the deep canyon of Fifth Avenue.

There he joined Legion and other notables on the reviewing stand until shortly after noon when he had to leave for a series of conferences at his campaign headquarters.

Heading the parade was an escort of 25 city policemen on sleek, prancing horses.

The grand marshal, Erle Cocke, Jr., of Dawson, Ga., last year's national Legion commander, had five honorary grand marshals—7 high ranking officers of all branches of the armed forces.

Army, Navy, Air Force, Marines Coast Guard—all had big contingents stepping out smartly to the music of their bands.

And behind the young faces and the new uniforms came the thousands of older faces, the veterans of two World Wars. Many marched more stiffly than the last time they paraded up the avenue—after coming back from France in 1918.

Many a girl had fattened on civilian chow, many a muscle was soft from relaxing at a desk. But few quickly remembered the throb of drums, and though close order drill was a thing of the misty past, the Legionnaires remembered to "Straighten it up! Straighten it up!"

Some sweating, some grinning, some a little saddened by memory as the bands played the old tunes of World War I and the newer tunes of the second great war, they kept their columns straight.

The sun glittered on brass and warmed the bare legs and arms of smiling drum majorettes as they tirelessly tossed and twirled silver batons at the heads of Legion post bands from virtually every state in the nation.

Kids who'd heard how their papas had won a war yelled and jumped at the sight of papa marching in a blue Legion cap. Fathers of one war marched with sons from a second.

And over the avenue, like a fat cigar, hovered a Navy blimp, sometimes almost invisible to the marchers through fluttering clouds of paper tossed from office windows.

Grand Marshal Cocke wasn't walking. He rode in a car. And each of his honorary grand marshals had a car to himself—Lt. Gen. Willis D. Crittenden of the First Army; Rear Adm. Roscoe H. Hillenkoetter of the Third naval district; Lt. Gen. Leon W. Johnson of the Continental Air Command; and Col. Miles Newton of the Marine Corps.

Loudly cheered were four honorary marshals, all holders of the Congressional Medal of Honor: Navy Lt. Thomas J. Hudner, Lt. Col. William A. Shomo of the Air Force; Army Master Sgt. Homer

L. Wise; and Marine Corps Master Sgt. Harold E. Wilson.

Gen. Eisenhower started marching at 39th Street in a group at the head of the Kansas delegation. He arrived at the spot in a car, accompanied by Sen. Frank Carlson of Kansas and Fred Bramlage of Junction City, Kas., a former national vice commander of the Legion who was designated Eisenhower's legion escort.

There were cries of "I Like Ike" and shrill whistles as the Republican candidate started to march.

Members of the Kansas delegation carried sunflowers, which had wilted and were drooping. Eisenhower, marching with Legion post No. 49 of Abilene, Kan.

In the reviewing stand were New York's Gov. Thomas E. Dewey, Mayor Vincent R. Impellitteri and other civilian and military dignitaries.

reached the reviewing stand at 64th Street at 10:27 a. m. (EST). At his side marched Past National Commander Harry Colmery of Topeka, Kans.

A few minutes earlier the crack Marine band, which moves out of Washington only at the direction of the President, had passed the stand blaring "From The Halls Of Montezuma."

Behind the band came the Legion's 1951 champion color guard—a six-man squad from post 85, Kanakee, Ill.

In the reviewing stand were New York's Gov. Thomas E. Dewey, Mayor Vincent R. Impellitteri and other civilian and military dignitaries.

1:10 p.m.—Left Gander.

The plane fought 100-mile-an-hour headwinds on its east to west flight, but was helped by them on the trip home.

The average speed on the home leg was just over 600 miles an hour. The 2,072 mile flight took 3 hours 26 minutes. The flight from Northern Ireland to Newfoundland required 4 hours 38 minutes. That was almost 40 miles an hour slower than the east-to-west record of 483.91 miles an hour established last August in the same plane by the same pilot—Wing Commander Roland Beaumont of the Royal Air Force.

The new west-to-east record was easy to establish. For more than 15 years the record has been 20 hours 29 minutes, set by the Americans H. T. Merrill and J. S. Lamb in a Lockheed plane. Many commercial planes have made better times, but not under official timing conditions approved by the International Aeronautical Federation.

Beaumont grinned as he jumped from the plane into a light drizzle which began falling half an hour before the Canberra arrived.

Grand Jury Note On Finnegan Given Okey by Slack

WASHINGTON (P)—House tax scandal probes were told today that Ellis N. Slack, now an acting assistant attorney general, okayed a grand jury report vindicating the way James P. Finnegan was handling the St. Louis internal revenue office in 1951.

District Judge George H. Moore described the report as "astounding" and told the grand jurors to try again.

"As a result," a judiciary subcommittee was told, "many indictments were returned, including an indictment of the collector of internal revenue in St. Louis, James P. Finnegan."

The statement was made by Robert A. Collier, counsel for the subcommittee as it resumed an inquiry into the St. Louis scandals that led to Finnegan's conviction last March 15 on charges of misconduct in office.

Chairman Chelf (D-Ky.) has announced the aim of the subcommittee is to find out whether there was any "interference" with the grand jury.

## British Jet Bomber Flies Atlantic Twice in 10 Hours

First Double Crossing in Single Day Takes Eight Hours Flying Time; 4,144 Miles From Ireland to Newfoundland

ALDERGROVE AIR FIELD, Northern Ireland (P)—A British jet bomber flashed across the Atlantic ocean and back today in slightly over 10 hours.

The double crossing in a single day was the first in history. The sleek black Canberra also smashed all previous records for a west to east passage as it streaked home from Gander, Newfoundland, western terminus of the epic flight.

The whole trip of 4,144 miles took 10 hours 4 minutes, including a two-hour stopover at Gander. This was the timetable of the bomber's trip, in terms of British daylight time which is six hours ahead of eastern standard:

HE MAY BE GETTING PETTIS COUNTY'S BLOOD—While waiting for an evacuation helicopter (just a few days ago), a Navy hospital corpsman, Norris Beakes of Middleton, N.Y., administers emergency blood transfusion to a Marine wounded in the Korean fighting. It is reasonable to feel the blood might be that of a Pettis Countyian since this county has always met its quota during the visits of the Red Cross blood bank in Sedalia. However, for the visit of the bank here Wednesday and Thursday of this week the registrations thus far are not equal to the quota—more donors will be needed if the blood goes through from here on schedule to aid the fighting men in Korea. (NEA TELEPHOTO)

## Only 132 of Needed 200 Register As Blood Donors for Tomorrow

Even Fewer Have Signed to Give Blood Thursday

Only 132 persons have registered as blood donors for the visit of the Red Cross mobile blood bank here on Wednesday, and even fewer have registered for Thursday—and it takes 200 pints of blood for each day with more than 200 persons needed to get the full 200 pints.

Not always are all donors accepted, so the number of registrations must exceed the number of pints of blood to be taken, officials report.

Those who desire to register may do so by calling the Red Cross or by reporting tomorrow or Thursday at the Smith-Cotton High School cafeteria, where the blood bank will be located.

The 132 registered for Wednesday include:

Mrs. Virgie Moore, Betty Ann Halsey, Harry E. Lindstrom, Cole Younger, Harold Bamberg, Mrs. W. A. Ball, Mrs. J. T. Edmundson, Mrs. C. H. Joy, Mrs. Fred Wertz, Mrs. Cleo Berry, Mrs. John Brown, Forest O. Craig, Mrs. H. C. Dennis, Mrs. Lucille Dowdy, Mrs. C. W. Dunlap.

Sedalia Can't De-Control

Deadline Nears for Cities To Decide on Rent Controls

By The Associated Press  
With the deadline for making a decision a little more than a month away, many of Missouri's city fathers have not made up their minds on whether to extend or end rent control.

The way the law reads, rent control expires automatically Sept. 30, unless the governing body of a community declares a substantial housing shortage. In that case controls may be extended to next April 30.

St. Louis and Jefferson City are among those which have already extended their controls.

Nursery for Children While Mothers Give Blood at Bank Here

There will be a nursery for the children of mothers who want to give their blood Wednesday and Thursday when the Red Cross mobile blood bank is making its visit to Pettis County, headquartered at the Smith-Cotton High School cafeteria.

In charge of the nursery on Wednesday will be: Sharon Scott and Mrs. John O'Brien, from 1 to 5:30 p.m., and Mrs. John Bowman from 4:30 to 8:30. Thursday those there will be the same except Mrs. Henry Lamm Jr. will replace Mrs. O'Brien.

The motor corps will pick up donors at their homes and return them home after they have visited the blood bank. For such service the Red Cross office may be contacted.

State Audit Shows Discrepancies

ST. JOSEPH, Mo. (P)—A state audit report has disclosed discrepancies of more than \$20,500 in accounts in Magistrate A. M. Olmsted's court here.

Filed with the Buchanan County Court and Prosecutor John E. Downs Monday, the report stated: "Due to the inefficient manner in which the records have been maintained it is impossible to determine the exact status of many accounts."

Olmsted and his clerk, Mrs. Edna Doppler Wisniewski, are under grand jury indictments. The audit did not specifically mention Olmsted, who is charged with obtaining money under false pretenses.

The clerk is charged with embezzlement of public funds. The report said the audit showed that \$6,467.50 is due from Mrs. Wisniewski as the difference between costs and fines assessed by the court and the credits traced in state and county records.

Nationwide Walkout Of Elevator Crews May Start in K.C.

KANSAS CITY (P)—A union official said Monday that a nationwide walkout of elevator workers may occur as a result of difficulties over a contract with operators of 15 Kansas City terminal elevators.

The 300 men who stayed off the job here Monday returned to work Tuesday while awaiting the outcome of the regional Wage Stabilization Board's action on the local contract.

Truman Names Woods As OPS Executive

WASHINGTON (P)—President Truman today named Tighe E. Woods, now the nation's rent controller, to head the Office of Price Stabilization.

Woods will succeed Ellis C. Arnall in the price post on Sept. 1. Arnall's resignation, effective on that date, has been in Truman's hands for some time.

## Brink's Theft Cracked

Hunch Gets Arrest Of Bakery Truck Driver for \$65,000 Robbery in Capital

WASHINGTON (P)—A hunch by Police chief Robert V. Murray cracked a \$65,000 Brink's armored car theft today less than 24 hours after a 26-year-old bakery truck driver pulled it off.

Arrested and charged with grand larceny was Ray Eugene Farmer, a short, slender youth who had been fired by Brink's three years ago after working as a guard for the armored car company.

All \$65,000 was recovered. Farmer dug up the money for police. He had buried it in a wooded area near Glen Echo Amusement park in nearby Maryland.

It was a carefully planned robbery, sandwiched in on Farmer's bakery route yesterday. Myrtle Jackson, receptionist at the bakery company, said today when advised of the arrest: "I just can't believe it."

One of Best Drivers  
"Ray came in from his route at the regular time yesterday," she said. "He was just as calm and nonchalant as he could be. He was one of our best drivers, one of our most trusted employees."

It was Chief Murray's recollection of a three-year-old incident that led to Farmer's arrest. Murray recalled that Farmer's Brink's uniform once popped up in the hands of a teenage gang of hoodlums, rounded up on various charges. There was suspicion at the time that some of this gang contemplated using the uniform in some sort of robbery.

Here is the story as told to reporters by Inspector Jeremiah Flakerty:

Fired by Brink's  
After Farmer's uniform was found in the possession of the gang in 1949, police took him into custody and questioned him. They found no evidence of any wrongdoing by Farmer and released him. Soon afterwards, Brink's fired him because of the uniform episode.

He went to work for the bakery company. But, as it developed, he kept a duplicate key to an armored car which travelled in the same area of his bakery route.

At noon yesterday, the armored car pulled up to the fashionable Wardman Park hotel and

A man started out from his house one day recently for work — the sun was shining pretty bright and the farther he walked the hotter he got — so — all of a sudden he thought to himself, "Why don't I cross the street where it is shady — why walk in the sun?"

He crossed over to the shady side and there on the sidewalk was a little old thin dime. He picked it up, put it in his pocket and all of a sudden he felt rich as could be — he had an extra dime he didn't have to work for.

Kerchoo, Kerchoo, Kerchoo — the hay fever season is on. This became fully evident Monday, Aug. 18, when Dr. J. E. Cannaday, a perennial sufferer from that annoying and troublesome affliction, started paroxysms of sneezes. Others, too, swelled the mounting chorus of "kerchoos."

Dr. Cannaday states most generally Aug. 15 is the time when the pollen count starts to do its term of annoyance and distress, but this year, he adds, the cycle arrived three days later. —W.D.A.

## Ike and Adlai Cigarettes Go On Sale in City

Since the political conventions in Chicago last month the campaign for presidency of the United States has been literally gone up in smoke.

In fact this campaign promises to be one of the hottest ever held. After the smoke clears away in November, however, our country will have a new president, whose name will have been on the lips of thousands of people throughout the country.

The reason for these comments is the new cigarettes which have been placed on sale in Sedalia. They are being distributed through the Peter's Sales Company and may be obtained at many tobacco counters in the city.

One package of the cigarette bears the picture of General Eisenhower and says on the front "Like Ike", which is also printed on each individual cigarette. The other package has a picture of Gov. Adlai Stevenson on the front and under it a caution reads, "Vote For Stevenson" which is also placed on each individual cigarette inside the package.

So it looks as though Sedalians may be inhaling a great amount of political atmosphere in the next few months.

## Autos Killing 104 Persons Each Day On Nation's Roads

CHICAGO (U) — Automobiles are killing people at the rate of about 104 per day on the nation's streets and highways.

Last year, the traffic death toll was 37,300, the National Safety Council reports. During the first six months this year, 16,820 fatalities were recorded, a 3 per cent increase over the half-year toll of 1951.

Traffic accidents account for about one-fourth of deaths from all causes throughout the nation. The comparison in 1950 was: 35,000 traffic deaths; 1,456,000 deaths from all causes.

There are probably more species of insects on earth than of all other animals combined. The National Geographic Society says about 800,000 species have been catalogued in museums.

## The Washington Merry-Go-Round Atomic Energy Provides New Tools for Research

By Drew Pearson

Dr. A. V. Astin on the Washington Merry-Go-Round  
(Note to Editors: While Drew Pearson is on a brief vacation, the Washington Merry-Go-Round is being written by several distinguished guest columnists, today's being A. V. Astin, director, National Bureau of Standards.)

WASHINGTON—The sweeping scientific and technological developments of the past few decades have naturally aroused considerable speculation on future trends. In terms of major developments, affecting our way of life, several fields appear very promising. The clues to these lie in the past. Thus, although the applied aspects of atomic energy have received considerable attention, the public is largely unaware of the influence of this program on science itself.

One of the influences is the availability of new tools for research and therapy in the form of radioactive materials. For example, radioactive sugars have been synthesized recently which have contributed to advances in the development of artificial blood plasma and the understanding of the basic processes in blood circulation. Radioactive cobalt has been made available, permitting an expansion in radiological therapy which has been restricted in the past by the limited availability of radium.

Electronics is another field which will show marked progress. Cheaper and better electronic devices, civilian and military, are on their way. The discovery of the principle of the transistor represents a major achievement, and we should see the successful development of methods of large-scale production of these devices. When that happens, the transistor will usurp the place of electron tubes in many applications. Because its power requirements are unusually small, the transistor will also be extremely valuable in applications where size is important — from hearing aids to electronic gear for aircraft. Faster and more versatile electronic computers will be developed. By-products of these electronic "brains," however, are destined to have an even greater impact upon our lives. These will be computer-like machines capable of processing all sorts of information. In particular, they will take over much routine bookkeeping and inventory operations, realizing considerable economies in government and business.

**Common Features**  
Most of these developments—as well as many others—have the following feature in common: They represent the application of knowledge to specific problems. Radically new principles of science are not involved. The story of atomic energy illustrates this. The development of the atomic bomb was an application of nuclear physics. That development would have been impossible without, first, some 50 years of basic work in atomic, nuclear, and electronic physics which preceded it, and, second, without the un-

THE STORY: Hector Fielding notices a young truck driver visiting the Art Museum. Hector, an art instructor, subsequently meets this truck driver, David Carlson, later at a movie and is intensely interested in photographing and Hector lends David a book, which is an excuse for another visit. The next day, Hector's mother calls and the mother is apparently worried over David's disappearance in a love affair.

"I'm glad you aren't trite enough to suggest that I find someone else," I told Mother. "I've been dating a couple of girls here and there."

"Well, don't push yourself into marrying just anybody," said Mother hastily. But maybe you could do what I did after Louis died. I tried to find some way to help someone else. I did case work. When you help other people, you turn your thoughts away from yourself, and presently you find that the wound doesn't hurt any more."

"Okay, okay," I agreed. "But I haven't the time, and charity organizations just don't appeal to me."

"Well, then find some individual who is in a worse state than yourself. The way to be happy is to make others so."

I exploded. "Why should happiness depend on other people? I want to be self-sufficient, from now on. I won't let myself get emotionally entangled again."

"All joy must be shared, or else it isn't joy," she argued. "Why don't you find a project, Hector? Set about it and let nothing interfere. Service to others is your—"

"Advice, advice!" I said bitterly. "Everyone gives me advice!"

Everyone's just trying to help you, dear."

She stayed two days longer, but we did not bring up the subject again. As soon as her train pulled

out, I went drearily back to the apartment.

When I dragged in the door Karl was kissing Betty, and though they were not embarrassed at being interrupted, I was, for some reason. Karl and Betty had been engaged for more than a year, but couldn't afford to get married. Karl was still interning.

Betty was a librarian. She lived with her family and saved her money. Every evening she parked her little blue coupe outside the hospital, and read by the light of the streetlamp until Karl got off duty; then she would drive him home. She was always bringing him presents—homemade cookies or a carton of cigarettes, or a new sponge for the kitchen sink.

The spectacle of Karl and Betty further accentuated my own frustration. And I thought, with Shakespeare, how bitter a thing it is to look into happiness through another man's eyes. For Kathy and I had been the same way.

I CUT myself some ham and cake and was wondering what to do with my evening when the phone rang. It was David, wanting to know if he could come by and return the book. I said, "Sure, come on up."

A few minutes later the buzzer sounded, and there he was, without his cap for once, and wearing an orange (yes, orange!) sports shirt and brown slacks. Suddenly, in that moment, my conversation of the other night with Mother came back. I decided to act on it: David would be my project.

All unaware of his new role, David slouched into the living room, slapping his heels on the floor, and I introduced him.

"Karl is going to take me over to the park to hear the band concert," murmured Betty. And the way she looked at Karl, you would have thought he was taking her to a box seat at the opera and a

## The World Today— Ike May Offer Substitute

By JAMES MARLOW

WASHINGTON (U)—Gen. Eisenhower, discontented with the foreign policy of the Truman administration, is confronted with the problem of offering a substitute of his own.

He told a group of Midwestern Republicans last week he doesn't know what this government has been trying to do beyond the "containment of communism."

In his speech to the American Legion in New York yesterday he said the United States must tell the Kremlin "we can never rest" until the Russian-dominated nations of Eastern Europe and Asia have been freed to choose their own destiny.

That raises a question, of course: If we tell the Russians the satellites must be freed and the Russians don't pay any attention to us, then what are we going to do?

Since he has two more months of campaigning ahead of him, Eisenhower will have time to explain in detail what he has in mind and how his foreign policy, if he's elected, would differ from the present one.

This Republican attack on the "containment of communism" is apparently part of the strategy of Eisenhower and his supporters. The same theme was used by John Foster Dulles Sunday night.

Dulles, mentioned as a possible choice for secretary of state if Eisenhower wins, said during a radio forum debate with Mutual Security Administrator Averell Harriman:

The Republican party's first step, if it wins in November, should be to "abandon the so-called policy of containment of communism. . . . Containment is a policy which . . .

standard of time. Some two years ago Drew Pearson announced the development of an atomic clock by the National Bureau of Standards. That preliminary model has had two successors. The more recent one depends upon the vibration of cesium atoms in a beam, and has a precision of the order of one part in 1,000,000,000.

The advances of science in such plain in detail what he has in mind and how his foreign policy, if he's elected, would differ from the present one.

The 64-year-old "cowboy" rents his equipment to advertise bond rallies, movies, parades, political candidates and commercial products. He began his collection in 1910 when he bought 64 carriages from a member of the Vanderbilt family for a total price of \$50.

champagne supper afterward. She was too short, her hips too wide, and she always wore the same mustard-colored flannel suit. Yet when she was with Karl, she emanated such a radiance and charm that she seemed a fascinating woman.

As soon as Karl and Betty left, David said perceptively, "You know, that dame's the nuts. She's got no looks. But she's got class—you know? And I'm the kind of guy who don't usually give no second looks to ugly women."

"Plain's a better word than ugly," I said.

"That guy's a doctor?"

"Yes. He has another year of internship at Trinity."

David looked impressed. "Now there's the life. Boy, that's a job I'd like! Sit in a nice office all day; people come and wait in line to get in. Nobody tells you what to do. Keep your own hours. Be a big shot," and he clicked tongue and teeth together expressively.

A stab of dislike knifed me. Snobbishness, ignorance, materialism—what a job I'd set myself!

OVER coffee and cake we discussed Steichen. The pictures he thought the best in the collection were my favorites also. He seemed to have an innate sense of form and composition.

As I cleared away cups and saucers, I thought of music: What records to play for a starter? I settled for the Mozart "Eine Kleine Nachtmusik," and excused myself to wash dishes. When I came back David was reading a comic book which he had evidently brought along, and chewing gum slowly.

Finally I asked him if he didn't like this music. He reddened, and presently admitted he thought it was awful, if I really wanted the truth. "Ain't got no bounce, no swing," he said.

"That's just what it does have!" It was the summer of "Chi-Baba, Chi-Baba" and "Old Butter-milk Sky," and he couldn't see my point.

After the Mozart I tried some Strauss waltzes, and these he did like. "But other things!" he complained.

## U.S. Oilman Goes To Iran to Help Get Oil in Lines

TEHRAN, Iran. (U) — American oilman W. Alton Jones left for the South Iran oil center of Abadan today to inspect the long idle, giant refinery once owned by the British.

Jones, who is president of the Cities Service Company of New York, was accompanied by four associates who arrived here with him from the United States on Saturday. Iranian government spokesmen had described Jones' assistants as "high caliber experts."

Announcing the party's arrival in Iran, the Iranian spokesman said yesterday Jones had come "to discover what assistance can be made to put the Iranian nationalized oil industry into operation" and "to advise Iranians how to continue working and administering the oil industry."

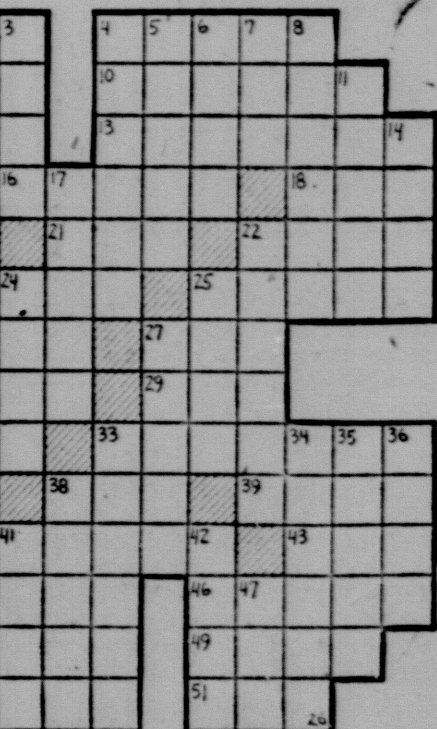

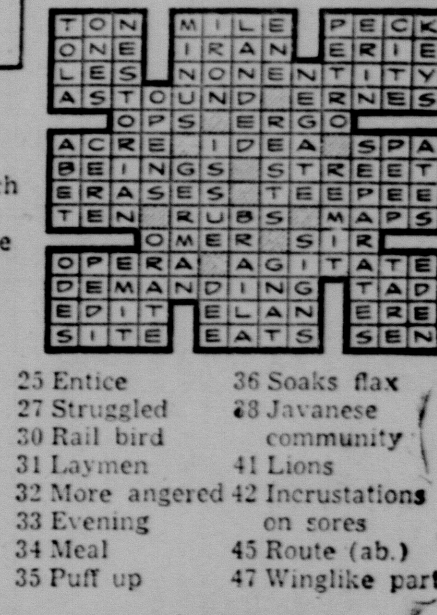

In New York, Cities Service officials said Jones had gone to Iran only to mediate in the long dispute between Iran and the British who formerly operated the country's oil industry. Their company, these officials said, had "No axe to grind anywhere" and Jones "wouldn't touch this matter on a selfish basis."

The State Department in Washington said the oil executive went to Iran in a private capacity, not as a U. S. government representative, and so far as they knew the British had not asked him to take a hand.

Jones' visit stirred widespread speculation that a break is near in the oil dispute which shut down Iran's most lucrative export industry soon after Parliament voted nationalization of the British properties 15 months ago.

The Yalu River made headlines in the Western world when Japanese forces crossed it to begin their surprise victory campaign against Russia in the Russo-Japanese War of 1904-05, says the National Geographic Society.

# Bennie Sands Was in Truck Hit by a Tree

Bennie Sands, 12-year-old son of Mr. and Mrs. Ed Sands, 1418 East Seventh, went through the experience at the Missouri State Fair during the tornado. Bennie didn't have much to say about his experience, nor did he mention to photographers who took pictures of the tree across the Midwest Poultry Farm and Hatchery truck, of Marshall, in which he appeared, that he had been in the truck.

Bennie was working around the truck and ice cream stand of William "Bill" Seelen, when pictures were taken and he appeared in what which was printed on the front page of the Democrat on Thursday night.

The youngest worked for Mr. Seelen at the fairgrounds, helping out in the stands, running errands. He had retired for the night and went to sleep in the rear of the truck. After the storm struck, it swung the truck part way around and a large tree went crashing down on the back part of the body of the truck. Bennie crawled out the rear and through the tree limbs to safety, clad only in his shorts.

Bennie suffered no more than shock for a few minutes and a drenching from the downpour of rain. He was given some clothing and continued on with his work, helping Mr. Seelen get things straightened out the best they could.

He attended Washington school and this year goes to Junior High School at Smith-Cotton.

## GOP Committee Sets Up Farm Council

WASHINGTON (AP)—The Republican National Committee set up today a farm council, organizing committee which it said will serve as "a leader of tremendous farm forces for the election of Eisenhower and Nixon."

Arthur E. Summerfield, the party's national chairman, said the new committee will operate in all farming areas of the country. It will be headed by Harold L. McKinley, livestock, grain and vegetable farmer from Saint Ansgar, Iowa.

McKinley was chairman of the GOP platform committee's agriculture group at the Chicago convention.

## OBITUARIES

### Miss Jeane Alice Roop

Miss Jeane Alice Roop, 62, well-known Baptist educational writer and worker, died at the Warrensburg Medical Center at 3 p. m. Monday.

Miss Roop, associated with the Missouri Baptist General Association for 27 years, wrote and published all junior and primary Sunday School lessons for the Southern Baptist Convention.

She was a graduate of Warrensburg Teachers College, Southwest Baptist Theological Seminary in Ft. Worth, and the Baptist Seminary in Kansas City, Kan.

She is survived by two sisters—Mrs. Anna Louise King of Warrensburg and Mrs. Mary Kay Swisher of Leeton; and four brothers—Shelton J. of Leeton, Alonzo W. of Oklahoma City, Joseph E., now in government service on Okinawa, and George B. of Canton, Okla.

Funeral services will be held 4 p. m. Wednesday at the First Baptist Church in Warrensburg. Burial will be in Sunset Hills Cemetery.

### Services for Mrs. Kreiling

Funeral services for Mrs. Minnie Kreiling, who died at the home of her daughter, Mrs. Norman Shults, Tipton, Wednesday, Aug. 20, were held at the Tipton Christian Church at 2:30 p. m. Thursday. The Rev. Nelson Sachs, Tipton, officiated.

Miss Shirley Nell Bennett and Mrs. Nelson Sachs sang "The Old Rugged Cross," "Precious Memories" and "Rock of Ages" with Mrs. Charles E. Bennett at the piano.

Burial was in the IOOF Cemetery at Tipton.

Palbearers were Peter Goodman, Russell Ferrin, Archie Roark, Jack Dunkin and William Gabriel, Tipton.

Mrs. Kreiling was born in Morgan County June 25, 1881, the daughter of Fritz and Minnie Rasmussen. She was married to Edward E. Kreiling and they were parents of three children, Mrs. Norman Shults, Tipton, and Cecil and William Kreiling, Versailles, Ala.

A nephew, E. T. Williams of Barnett, from the age of 12 was reared in the Kreiling home.

Other than her children and nephews, surviving are: three sisters, Mrs. Walt Leatherman, Booneville, Mrs. Bennie Klein, Smithton, Mrs. Emma Thornhill, whose present address is not known; and two brothers, Ed Rasmussen, Florence, and Ernest Rasmussen, ten living grandchildren, several nieces and nephews.

After marriage Mrs. Kreiling lived on a farm east of Versailles until six years ago when she went to that place to make her home. She was a member of the Lutheran Church.

Services for Mrs. Burney

Funeral services for Mrs. Mary Shaw Burney were held Saturday at 2:30 p. m. at the Parker Funeral Home in La Monte with Dr. E. C. Wright, pastor of the Methodist Church, officiating.

William Guenther, Perry Reed and Jerome Schenk sang: "Whisper Hope and Near to the Heart of God" with Mrs. R. B. Burke as the accompanist.

Palbearers were T. H. Settles, Jeff Drake, John Sullivan, John Little and Oliver Agee of La Monte and Stanley Smith of Paola, Kan.

Burial was in the La Monte cemetery.

George M. Stober Services

Funeral services for George M. Stober, 32, 1223 Stewart, who died at the Bothwell Hospital Monday morning, will be held at the Ewing Funeral Home at 2:30 p. m. Wednesday. The Rev. Lee F. Soxman, pastor of the Fifth Street Methodist Church, will officiate.

Six nephews will serve as pallbearers: Orville Cameron, Clem Warbritton, Romig, Charles Romig, John Zuhn and Ned Sims. Burial will be in the Memorial Park Cemetery.

Mr. Stober is survived by: his wife, Mrs. Cora Burgmaster Stober; one daughter, Mrs. G. C. Abney, 411 North Prospect; one brother, J. H. Stober, Lincoln; one sister, Mrs. Jennie Batdorf, Port Harbor, Me.; two grandchildren, Clifford G. Abney, Sedalia, Mrs. A. S. Harwell, Montgomery, Ala., and three great grandchildren.

The body is at the Ewing Funeral Home.

American Legion Post No. 342 will meet on Thursday, August 28th, at 8 p. m. at 1144 East Third. All members are urged to attend.

## MU Chooses Local Students to Aid The Freshmen

Among the 120 upperclassmen at the University of Missouri, Columbia, who have been chosen to serve as group leaders to guide and counsel freshmen this fall, are several from the Sedalia area:

• Judith Yeaman, 501 West Broadway, Sedalia; John Boyer, Warrensburg; Florence Schmidt, Marshall; and James F. Sutherland, Windsor.

These students have been selected after careful screening by a university committee and have volunteered to return to the campus almost a week before their regular classwork begins to aid new students in their indoctrination and orientation to campus life.

Freshmen and transfer students are required to attend new student convocations, various orientation, counseling, testing and advisory session, and other official meetings arranged for them. New Student Week is held in advance of all other official student activities on the campus.

## John Reynolds Will Observe 81st Birthday

John Reynolds, who for 54 years has been selling things on the streets of Sedalia, will be 81 years old on Wednesday, Aug. 27.

John came to Sedalia 54 years ago from Springfield and on Aug. 27, of that year there was a terrific storm here he said, which killed a horse and did a great deal of damage down on Main Street. John was standing in the Hub Clothing Store, located about where the Quinn Shoe is now, when the storm broke. That day he bought grapes north of town for two cents a pound.

Through the years John has sold almost everything on the streets even to hired girls—he found jobs for a number of girls that way. Always he has sold apples and he has quite a long verse about apples that he sings or chants as he goes along, rhyming word after word. "I made it up myself," says John.

"Yes," said John "I will be 81 tomorrow—that's a long time, but he added, "It doesn't seem very long."

## Two Tipton Girls Severely Injured

ODESSA—Six persons were injured, two dangerously in a collision of two motor cars about 4:30 p. m. Monday eight miles east of Odessa on U. S. highway No. 40.

Miss Carolyn Folkerts, 16, Tipton, driver of the eastbound vehicle, suffered a pelvis fracture and a passenger, Miss Mary Jo Verlinden, 16, Tipton, suffered internal injuries. Both were unconscious on arrival at a hospital in Lexington.

The driver of the second vehicle, Henry Ferebee, 34, his wife, Mrs. Dorothy J. Ferebee, 32, and two daughters, Nancy Louise Ferebee, 3, and Dorothy Ferebee, 13, El Cajon, Calif., were treated for minor injuries.

## Mrs. Della Stewart Escapes Tornado Damage at Camp

Mrs. Della Stewart, a delegate from the Seventh Day Adventists Church in Sedalia to the ten day camp meeting held at Sunny Dale Academy, Centralia, was in the huge tent, which had seating capacity for 1,500 people, Wednesday night when the tornado hit the camp before it hit at the Fairgrounds in Sedalia.

The wind, Mrs. Stewart said, came just following the song service and as one of the preachers began his sermon. The crowd was asked to get out of the tent as quickly as possible and nobody was hurt. Just as the last were leaving the tent, the large central pole fell knocking one of the ministers across the last row of benches. He was uninjured. The tent was flattened and almost completely demolished.

The tents where the people at the camp meeting were staying during the meeting, which lasted from Aug. 14 to 23, were arranged in rows and the tornado tore down one row, left the next, tore down the next, taking every other row all the way through.

Eight other people from Sedalia attended the meeting on the Sunday before the storm, but Mrs. Stewart was the only one who remained the entire ten days.

# Williams Sees Ft. Wood Win At Wichita

Missouri's Semi-Pro Baseball Commissioner, H. L. "Hank" Williams, is unhappy with the National Baseball Congress Tournament report—because he picks Ft. Brooks Medical nine to win. Commissioner Williams now declares the Missouri "Show-Me" team, Ft. Leonard Wood Hilltoppers will upset some of the predictions.

First, the Hilltoppers representing Missouri in the national affair at Wichita, Kan., have won all three games they have played. They have defeated Boonville, Ark., 10-0; Guam Marines 13-3; and Ft. Ord, Calif., 1-0. From the record book, three victories should put the "Toppers close to some place money anyway—but the "Toppers are not looking for peanuts, they are looking now at the big trophy, the \$10,000 prize money and a trip to Japan via the baseball route and not a troop transport.

Williams said, "when a team wins three consecutive games, two of which are shutouts, and holding their opponents to three runs in three games, while the Ft. Wood boys score 24 runs, it looks like the boys from the "Show Me" State will have to be given more consideration.

"You recall," said Williams, "a little guy from Missouri didn't have a chance to become a big leaguer, but today the boy from Missouri, who just couldn't make it, is now sitting in the 'golden chair' in the White House.

Furthermore Williams is of the opinion that when the winner of the National tournament boards the plane for Tokyo, Japan, it will be Manager Vern Rapp and his Ft. Leonard Wood Hilltoppers.

Williams is sweating out a couple of more games with the thought in mind he will be on the bench or in the stands at Wichita when Missouri 'con' the NBC tournament. He's a firm believer the "Toppers are going to do it.

**WICHITA** — Two of the four teams still unbeaten in the national non-pro baseball tournament meet in Tuesday night's feature contest of a three-game card.

The Ft. Leonard Wood Hilltoppers play Ft. Meyer, Va., Colonials in the fourth round of the lengthy double elimination meet. The tournament began Aug. 15 and is expected to wind up about Sept. 1. Other undefeated teams are the Brooke Army Medical Center of San Antonio, Tex., and Camp Atterbury, Ind.

Camp Atterbury had its toughest game of the tournament Monday night, edging the El Paso, Tex., Alpine Cowboys 7-6. The Cowboys scored three runs in the last of the ninth and had the tying run on base when they made their final out.

Two other service teams also turned in victories. Ft. Dix, N. J., eliminated Pittsfield, Mass., 3-0, and moved into the fourth round. Irv Palica, who pitched for the Brooklyn Dodgers before entering the Army, was the winning hurler. Ft. Ord, Calif., ousted Crossville, Tenn., 7-2, and also advanced into the fourth round.

Tuesday night's schedule: (times central standard): 5:45 p. m.—Sinton, Tex., Oilers Vs. Birmingham, Ala., Steelers (fourth round, loser eliminated). 8 p. m.—Ft. Leonard Wood vs. Ft. Meyer (fourth round). 10 p. m.—Wichita, Kas., Boeing Bombers vs. Casa Grande, Ariz., Cotton Kings (fourth round, loser eliminated).

# Raffensberger Takes Over Lead With Earned Runs

**NEW YORK** — Lefty Ken Raffensberger of the Cincinnati Reds, who turned in a six-hit shutout against the New York Giants last night, has taken over as the National League's earned run leader.

Averages compiled by The Associated Press through yesterday's games disclose that the 35-year-old Raffensberger has allowed 38 earned runs in 208 innings for a 2.51 mark. The veteran Redleg hurler has a 14-11 record.

In the American League, Philadelphia's Bobby Shantz, with 46 earned tallies in 229 frames, holds the top spot with a 1.1 average. The brilliant southpaw, seeking to capture pitching's triple crown, has won 22 and dropped only four for the fourth-place Athletics.

Karl Drews and Robin Roberts, a pair of Philadelphia right-handers, follow close behind Raffensberger in the National League. Drews, who boasts five shutouts, has permitted 48 earned runs in 171 innings, for a 2.53 slate while Roberts, the N. L.'s only 20-game winner, is third at 2.56. Robin's record shows 71 earned runs in 250 innings.

Allie Reynolds, the early season ERA leader in the American League, still has a chance to overtake Shantz. The 34-year-old New York Yankee right-hander, with 47 earned runs in 193 frames, is runner-up with a 2.19 average.

Cleveland's Mike Garcia holds down third place at 2.36. The durable right, who shows a 16-8 record, has given up 60 earned runs in 229 innings.

## Trucks in Joy Ride After 2nd No-Hitter

By JOE REICHLER  
AP Sports Writer

Virgil Trucks was riding on the clouds Tuesday but if the double no-hit pitcher of the Detroit Tigers was going around in circles, who could blame him?

The 33-year-old right-hander, suffering his poorest season in the majors, suddenly finds himself in the pitchers' mythical Hall of Fame, joining Johnny Vander Meer and Allie Reynolds on a special pedestal reserved for those who achieve two no-hitters in the same season.

Trucks held the New York Yankees hitless Monday at the Yankee Stadium and won, 1-0, in a sensational, thrill-packed performance that cut the world champions' American League lead to one game over the Cleveland Indians, who defeated Washington, 7-2. The classic came just three months and 10 days after he handcuffed the Washington Senators without a hit or a run on May 15.

The Birmingham fireballer also pitched a one-hitter, a two-hitter, a four-hitter, a five-hitter and two six-hitters. Yet he has only five victories to show for his efforts as against 15 defeats. Only Art Houtteman, a teammate, has lost more.

It was not until the Yankees were going to bat in the seventh inning that Trucks learned he had a no-hitter going. Until then he, along with everyone else, was under the assumption that he had allowed a hit in the third inning.

In that inning, Phil Rizzuto dropped a simple grounder to short. Johnny Pesky fielded the ball cleanly and then bobbled it in his glove as he tried to pick it out for the throw to first. After one bad stab, he grabbed it and the toss was low and late and Rizzuto was safe.

John Drebringer, official scorer and veteran baseball writer of the New York Times, called it an error immediately and the "E" was flashed on the scoreboard in centerfield. Then, after a moment's reflection, he reversed himself. Under the impression that the ball had stuck in the webbing of Pesky's glove, Drebringer changed it to a hit.

Still not satisfied, Drebringer telephoned Pesky in the visitors' dugout as the Tigers came to bat in the seventh and the shortstop readily took the blame.

"It was my fault. I booted the ball," he explained. "I had it in my glove but it squirted loose just as I reached to take it out."

Drebringer then reversed himself again, ruled it an error and had the public address system announce it to the customers. The crowd greeted the announcement with a roar of approval and Trucks, visibly affected, worked all the harder in the three remaining innings.

The Brooklyn Dodgers just about killed the Cardinals' slim pennant chances, sweeping both ends of a day-night St. Louis doubleheader, 3-1 and 9-1, to boost their National League lead to 10 1/2 games. The 15,367 per game for a total of 200,717. With someone else on the mound, Jimmy Dykes, charges have played to 439,761 road customers in 30 appearances for a 14.658 average per game.

The best crowd Shantz has pitched before was the capacity house of 35,673 which watched him rack up win No. 20 against the Red Sox here. His best road date was a Memorial Day appearance at Yankee Stadium. For the double-header, 30,005 showed up.

Thus the featherweight feature attraction of the Mackmen may easily make the difference in whether the club ends up in the red or black this year.

At least, Shantz is the most magnetic personality the A's have come up with since the colorful Bobo Newsom helped home attendance above the half-million mark in 1944 when the A's finished fifth.

But Newsom won only 13 and lost 15. Shantz, who has suffered only four setbacks, couldn't lose that many this year even if he tried.

The University of Washington student climbed down to eliminate Arnold Blum, although the Macon, Ga., crack managed to keep his game on the ground. (NEA)

A five-run ninth inning, climaxed by Roy Campanella's home run with two on after Pee Wee Reese had singled in the tying and winning runs, finished off the Cards in the nightcap. The Dodgers snapped a 1-1 first-game tie in the seventh, scoring twice on singles by George Shuba, Gil Hodges and Andy Pafko and a long foul fly by Campanella. Rookie John Rutherford limited the Redbirds to two hits.

## Deer Hunting In 42 Counties Of Missouri

**JEFFERSON CITY** —Missouri deer hunters can stalk their game in 42 counties Nov. 6, 7 and 8 this year. And in 23 of the counties they can shoot any deer, either bucks or does.

The State Conservation Commission set the dates yesterday, adding ten new counties where the expanding deer herd has grown large enough to allow hunting. Last year the hunting of any deer, regardless of age or sex, was limited to 15 counties. Here are the 23 "any-deer" counties year:

Carter, Cole, Crawford, Dent, Douglas, Franklin, Gasconade, Howell, Jefferson, Maries, Oregon, Osage, Ozark, Phelps, Pulaski, Reynolds, Ripley, Shannon, Ste. Genevieve, Taney, Texas, Washington and Wayne.

Cole and Pulaski counties are being opened for the first time. Six of the counties where only bucks will be legal game are north of the Missouri River, where hunting will be opened for the first time. They are Boone, Callaway, Chariton, Livingston, Montgomery and Warren. McDonald and Morgan also have been added this year.

The other counties where bucks will be the only legal targets are Barry, Bollinger, Butler, Camden, Iron, Johnson, Madison, Miller, Perry, St. Francois and Stone. The commission also extended the bow and arrow hunting area

## Miss H. Gray Tells Rotary Of Ford Fund

Miss Hazel Gray, American history teacher at Smith-Cotton High School, who has received a fellowship from the Ford Foundation, was the speaker Monday night at the Rotary Club meeting held at the Bothwell Hotel.

Miss Gray said that the Ford Foundation has five areas of human affairs on which it is working. First, to strengthen peace; second, aid the democratic processes; third, advance education; fourth, support economic well-being throughout the world; and fifth, eliminate some of the maladjustments of individuals.

All of those things cannot be measured visually, said Miss Gray, like other foundations. The Carnegie Foundation establishes libraries, the Rockefeller Foundation medical centers; other foundations universities, hospitals, colleges, endowments, chairs of learning in various colleges.

But the Ford Foundation does not believe there is a need for more buildings and institutions the speaker said. It believes there is a greater need for learning how to get along with each other and guidance in organizing and benefiting from the riches of democratic society. The Ford Foundation is establishing an organization to carry out these aims and one of those organizations is the fund for the advancement of education that puts its finger on Sedalia this summer, Miss Gray said.

The speaker was introduced by Charley Benard, program chairman. W. E. Hurlbut Jr., presided over the business meeting.

The business meeting was presided over by the Rev. T. W. Croxton.

Fred Brink led the singing with Miss Lillian Fox at the piano.

Guests introduced by George Lockett were: Nick Knutz, guest of Del Heckart; Gene Haley, Moline, Ill., guest of Rich Johnson; George Lockett Jr., guest of his father; Rotarians Larry Griffith, Port Allegany, Pa., and Glenn R. Sneider, Weatherford, Okla.

Z. Lyle Brown, who is being transferred to Moberly, made a few farewell remarks.

Goodwill ambassadors were Harry Naugel, Moberly, Louis Payton and Foster Scotten, Jefferson City, and Bob Johnson, Grand Rapids, Minn.

## 10 Inches Rain Floods Manila, Causes 8 Deaths

MANILA (U)—Ten inches of rain in 15 hours flooded 90 per cent of this capital yesterday and today. As the one to three-foot-deep waters receded, at least eight dead were counted.

Six bodies were recovered from flooded Manila streets. Two persons drowned in the provinces.

The sudden tropical storm, whipped by heavy winds, injured 14 others. Three were missing.

Swollen rivers and streams swept away rows of homes and wooden bridges. Thousands of workers in the city of one million persons were marooned for hours in waist-high, swirling waters.

Numerous cars and buses remained stalled in streets broken up by the flood.

Threatening clouds hung low over the sea-level city.

The Weather Bureau said the 15-hour storm was caused by a low pressure area which hit Manila without warning. The disturbance had moved 350 miles west-northwest of Manila by mid-afternoon.

The Weather Bureau said it was headed for the South China mainland in the vicinity of Hainan.

During the height of the storm, strong winds whipped water over the sea wall protecting the city.

All outgoing domestic airline flights from Manila International Airport were canceled yesterday.

Three inbound planes from Tokyo, Hong Kong, and Bangkok landed at Clark Field, 40 miles north of Manila.

Typhoon warnings were lowered today over Central and North Luzon, permitting resumption of plane flights.

## Ike Is Told His Campaign Not Too Good

By The Associated Press  
Gen. Dwight D. Eisenhower has been told his campaign is not doing well so far. Aides said today he has deliberately pulled his punches, but now is ready for a toe-to-toe fight for the presidency.

Those close to the Republican candidate say his next moves will be to:

1. Obtain the active support of Sen. Robert A. Taft of Ohio, Taft's organization and the Republicans who backed Taft for the nomination.

2. Begin speaking out on specific issues, blasting Gov. Adlai Stevenson of Illinois, the Democratic nominee, and pin-pointing major GOP charges against the Democrats and the Truman administration.

The general, apparently, was getting under way today:

He scheduled appointments in his newly established New York headquarters with such top Republicans as Sen. Edward Martin of Pennsylvania; Rep. Styles Bridges of New Hampshire; Rep. Joseph W. Martin Jr. of Massachusetts; John Foster Dulles, foreign affairs adviser; the GOP vice presidential running mate, Sen. Richard Nixon of California, and others.

In between conferences Eisenhower planned to march in the American Legion parade.

Stevenson was due to see a few callers in Springfield, Ill., today to talk over farm problems.

They included Clyde H. Seybold, president of the National Rural Electric Co-operative Association, and Herschel D. Newsom, master of the National Grange.

But most of the day was set aside for polishing up the address he will make before the American Legion Convention in New York tomorrow, a speech he hopes may touch off a Stevenson boom in the East.

Yesterday officials of the National Plowing Contest reversed their previous stand and wired Stevenson an invitation to address an expected crowd of more than 100,000 on Sept. 6—the same date Eisenhower will speak before the gathering in the Kasson-Dodge Center area near Rochester, Minn.

**Truce Talks Will Resume Tomorrow After Long Recess**

MUNSAN, Korea (U)—Korean armistice negotiations resume tomorrow after a fourth straight weeklong recess.

The United Nations and Communist truce delegates will meet at Panmunjon at 11 a.m. (9 p.m. Tuesday, EST).

A fifth recess seemed likely unless a new approach is submitted on the deadlocking issue of prisoner of war exchange, last hurdle before an armistice.

Since July 26, the truce teams have met only once a week. At each session, both sides repeated their stands on the prisoner dispute.

Then the delegates called it quits for another week.

The enemy wants back 118,000 prisoners, including all 20,000 Chinese in Allied camps.

The U. N. Command offers only 3,000 prisoners, including 6,400 Chinese. The U. N. says the remaining thousands of captives refuse to go back to North Korea or Red China. And the U. N. says it will refuse to use force to push any prisoner back across the line.

## Rescue Vehicles Only Mile Away as Plane Crashes in Flames

SHREVEPORT, La. (U)—Emergency vehicles waited only a mile away as a crippled B29 crashed and burst into flames at nearby Barksdale Air Force Base. Seven airmen were killed.

The pilot notified the control tower his No. 1 engine was dead and that he was making an emergency landing yesterday. Accident vehicles, fire trucks and ambulances were waiting on the runway. But the craft, a refueling plane

heavily loaded with gasoline, dropped a mile short of the runway.

The lone survivor received undetermined injuries. Barksdale officials said he evidently was standing near the doorway and jumped clear after the crash.

Funny Business . . . By Hershberger

"I haven't missed the 8:15 once since installing this new gimmick!"

**'Boys Town' In Indo-China**  
HANOI, Indo-China (AP)—There's a "Boys Town" in Indo-China, too. It's right here in Hanoi—headquarters city for the French Union forces warring against the Communist-led Vietminh.

The real name of "Boys Town" is "Cite du Christ Roi"—the City of Christ, the King. It's an institution run by Catholic priests and sisters to help orphaned boys—whether they drift in from territory held by the Vietminh or the French Union forces.

Father Paul Seitz, of the Paris

Foreign Missions, is hopeful that "Boys Town" may someday have quarters for 1,000 war orphans. Right now, 450 boys make up its "citizens."

# Adlai Is Set For Bold Bid In New York

SPRINGFIELD, Ill. (AP) — Gov. Adlai Stevenson was all set today to make a bold bid for votes in New York and then swing into a nine-state Western tour early next month on his presidential campaign.

The Democratic presidential nominee will address the American Legion Convention at Madison Square Garden tomorrow. After that he plunges into a round of politicking that has all the earmarks of a major campaign effort.

His Labor Day speech in Detroit will launch his formal campaign—but the New York City trip was developing as the real opening campaign barrage in fact if not in name.

Stevenson was due to see a few callers today to discuss farm and rural electrification problems. The visitors included Clay H. Seybold, president of the National Rural Electric Co-operative Association; Roy J. Turner, chairman of the Democratic National Committee's Agricultural Division; and Herschel D. Newsum, master of the National Grange.

But most of the day was set aside for polishing up his New York City speeches, which his lieutenants hope will touch off a Stevenson boom in the East. Later this fall, Stevenson will return to New York for a campaign tour through the state.

The Western tour began to shape up as a jam-packed 10 days of plane-hopping into the Northwest, and then circling down the Pacific Coast into the Southwest.

Unofficial reports indicated the tour would open Sept. 5 with a television speech in Denver, Colo., and conferences with Democratic political leaders from 11 Western states.

Other speeches were said to be tentatively scheduled for: Des Moines, Ia.; Casper, Wyo.; Billings, Mont.; Seattle, Wash.; Spokane, Wash.; Portland, Ore.; San Francisco and Los Angeles; Phoenix, Ariz.; and Albuquerque, N. M.

This schedule could be changed again to arrange for Stevenson to appear at the Kasson, Minn., National Plowing Contest Sept. 6—the same day Eisenhower is due to speak there.

Stevenson has accepted one invitation to speak there—and then the plans were changed when contest officials voted against both candidates appearing on the same day. But last night the invitation was extended for a second time, after contest officials received protests against their action closing the date to Stevenson.

Wilson Wyatt, Stevenson's personal campaign manager, said the Kasson invitation would be considered even though a tentative speech already has been scheduled for Sept. 6. This tentative date was believed to be Des Moines.

Stevenson's Labor Day speech in Detroit is expected to dwell at length on his views regarding the Taft-Hartley Law and labor-management relations in general. Walter Reuther, president of the CIO United Automobile Workers, told reporters yesterday he thought Stevenson would stand on the Democratic platform which calls for repeal of the Taft-Hartley Law. And he said he was willing to "take my chances" on the labor legislation Stevenson would approve if elected President.

Reuther said Stevenson had courage, integrity, and a "sense of social responsibility" which would lead him to the right decisions.

As for GOP presidential nominee Dwight D. Eisenhower, Reuther said his specialized military training did not fit him for the White House job. He said Eisenhower was an able and honorable man but that he didn't have Stevenson's background and training for the presidency.

"When you need a doctor you don't call a plumber," Reuther told reporters. And then he added he thought Eisenhower was "working in the wrong job classification" as presidential candidate.

There was considerable speculation here about a visit with Stevenson by Phil Perlman of Baltimore, who resigned recently as President Truman's solicitor-general.

Perlman was with Stevenson for several hours yesterday but his name was kept off the visitors' list. Perlman said he talked to the governor about the tidelands oil

## Fear All 8 Die in Bomber Crash After Hit by Mistake

EGLIN AIR FORCE BASE, Fla. (AP)—A rocket fired by mistake by an automatically controlled jet fighter sent a B17 bomber spinning in flames into the Gulf of Mexico yesterday. All eight crewmen on the bomber may have been killed.

One crewman who parachuted into the water with his life jacket was caught in the 15-foot waves churned up by a sudden rainstorm, and may have been washed under.

An all-night search of the debris-littered waters by ships and planes failed to bring any rescues. The crash scene was about 50 miles south of Panama City.

The rocket was fired by the pilot of an F86d, the Air Force's newest all-weather fighter, which is undergoing operational suitability tests at the air proving ground.

The Air Force said the pilot, Col. Arthur R. Debolt, 39, of Columbus, O., apparently mistook the B17 "mother" plane for a radio-controlled drone. The drone was following about a mile and a half behind.

Col. Debolt, a World War II veteran recalled to active duty, was overcome with grief at the tragic

error. He was unable to explain how it happened.

He saw the hit plainly on his radar screen and figured it was scored on the drone.

"The first I knew it was a mistake I heard a voice on the radio from one of the other planes accompanying us saying, 'Watch for chutes. He got the wrong plane.'"

Debolt told military interviewers "I just can't believe I hit the wrong plane. I don't know how it happened."

Another B17 "mother plane escaped being hit and guided the drone back to the base.

Members of the Flying Fortress crew were not identified pending notification of next of kin.

The Air Force has been testing the 650-mile-an-hour F86d for several months here. Debolt had been out on several training missions with the plane previously, and had made several successful passes on the target yesterday morning.

An Air Force spokesman said the F86 operates automatically to the extent that once a target comes within range of its radar the electronic equipment locks on to the target and guides the fighter in to the attack.

The pilot retains control of the firing mechanism, however, and can refrain from firing his rockets until he has positively identified the target, the spokesman said.

A life raft was tossed out to the one survivor spotted a few minutes before the storm struck.

Lt. L. J. Wickenheiser, pilot of a PB7 flying boat out of Corry Field, Pensacola, said he flew just above the water and saw the survivor smiling up at him while he bobbed about in his life jacket.

"A heavy squall line 30 miles wide came roaring down upon us then," Wickenheiser said. "When it passed we couldn't find him. I don't know if he got the raft."

## U.S. Air Force Reopens Doors To Enlistments

Recruiting for the U. S. Air Forces has been opened again, T/Sgt. Russell B. Roundtree announced Monday. The enlistments were closed last Thursday and reopened on Saturday.

The Air Force Recruiting group which was stationed at the Missouri State Fair during fair week closed the exhibit after the tornado Thursday morning.

T/Sgt. Roundtree, on behalf of the Air Force, extended appreciation to Montgomery Ward and Co., Mode O'Day, Brock Shop, Ellis Ready-to-Wear, Burton's Ready-to-Wear, for their cooperation in loaning mannequins on which were displayed various types of uniforms. Some of this equipment was extensively damaged in the storm. Puckett's Cafe fed the recruiters who were assigned to duty here.

The display was badly wrecked and damaged when the tornado struck. SFC. W. T. York, Kansas City, who was on duty that morn-
